Shabbat Certification

**We hereby certify
that the CPAP devices sold by Maxima Medical
and manufactured by SEFAM models
DreamStar (Intro, Info, Auto, Dua, DuaST)
For the treatment of sleep apnea
can be used on the Jewish Sabbath and Holidays
according to the following stipulations:**

1. You can activate the device before Shabbat for immediate usage and turn it off with a Shabbat clock.
2. Alternatively, you can activate the device through a Shabbat clock only within 3 hours after switching it on. The internal memory does not allow operation beyond this time.
3. Make sure that there is no electronic beeping when the mask is taken off.
4. It is recommended to cover the display for Shabbat and not be interested in the information appearing on it.
5. On Shabbat it is also allowed to use the moisture facility. It is advisable to fill the tank before Shabbat.

With Blessings for a restful and healthy Shabbat,

Rabbi Yisrael Rozen, eng.
Dean, The Zomet Institute
